

TNF Fact Sheet

Insurance for Talking Newspapers

The Talking News Federation provides an insurance scheme for member talking newspapers that gives specially tailored, cost effective cover. Our Insurance Brokers NBJ Ltd have lots of experience of working with TNs.

One of the benefits of our scheme is that cover is provided on a group basis. This keeps premiums low because the risk is spread.

If you took out your own separate policy and later needed to make a claim, you could find your premiums increasing the following year. You may not even be able to find cover at all! With our scheme, one large claim has little impact on the overall good claims record.

We can provide equipment and public liability cover. A separate professional liability policy, including libel and copyright infringement can also be provided. Both policies run from August each year but, should you wish to join the scheme in between these periods, interim cover can be arranged.
