

## **NTNM**

We would very much appreciate the support of local TNs in letting many more people know about and experience the benefits of our National Talking Newspapers and Magazines service.

We hope you will be able to use the audio files and introductory text below as part of your own magazine programmes.

Reading magazines and newspapers is an excellent way to keep up to date with what's happening in the world – including everyday things like money management, new products, changes in benefits and so on and being able to follow your favourite interests such as music, sport, religious matters or even steam trains. Our NTNM service offers over 250 of the UK's magazine titles on audio CD and also for download.

Every month we will provide articles from the latest editions of some of our titles and full magazines for the month which you can download and freely copy for your listeners.

We would be very grateful if, at the end of the pieces you use, you could say something like

“There are over 250 magazines available on audio CD from the National Talking Newspaper and Magazines service and if you have a computer or mobile phone you can also download electronic files of daily newspapers.

For more information or to get a free sample please call the customer services team on 01435 866 102”

This month's audio files are:

Sampler of Decembers edition of BBC History magazine from NTNM.
